COURSE INTRODUCTION

Turning Ideas into Professional Digital Designs.

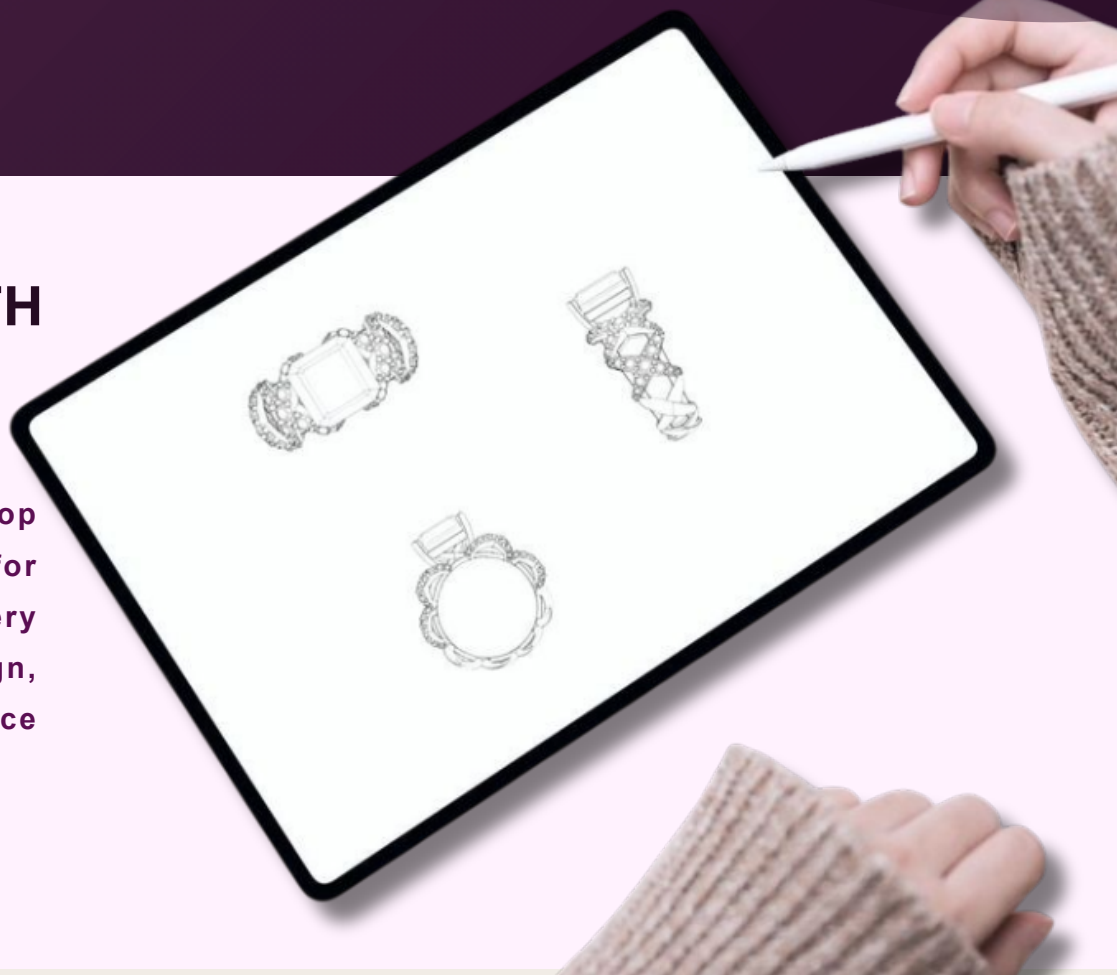

Welcome to the Procreate Jewellery Design Course at R3 Jewel Academy. This course is designed to provide students with a comprehensive understanding of digital jewellery illustration using Procreate, one of the industry's leading creative applications.

Throughout the course, students will learn professional sketching techniques, realistic gemstone and metal rendering, custom brush creation, jewellery setting illustrations, and presentation methods. Each module combines theoretical knowledge with practical exercises, enabling students to develop both artistic creativity and technical precision.

With a structured, industry-focused curriculum, this program prepares learners to create high-quality, presentation-ready jewellery designs while building a strong portfolio. Whether you are a beginner, a student, or an aspiring jewellery designer, this course will help you gain the confidence, skills, and practical experience needed to succeed in the modern jewellery industry.

ILLUSTRATE WITH CREATIVITY

What You Will Develop
industry-ready skills for
careers in digital jewellery
illustration, design,
